6. Objective is to create Drill down Filtering Actions. When Clicked on “Texas” Should automatically show details pertaining only to Texas.
 - a. In Main Menu “Dashboard” → Actions→Add actions→Filter
 - b. Name The Action as you would like to see”Click here to View details of State”

- c. Source Sheet → “Primary Dashboard” → Select the relevant Sheet → Run Action on – Menu
- d. Target Sheet → “Details (Dashboard)” → Select relevant Sheet → Leave the Filter → Target Filters – All Fields.
- e. Click Ok
- f. Test the Filter action By hovering around the State Dashboard and click on any state. You shall find a URL appearing “Click here to View details of State”. Upon clicking the URL, shall navigate to the details dashboard showing only the required details.
